COLONY™

Non-Chamfered Edges
3 7/8 x 7 7/8 inches (100 x 200 mm)
2 3/8 inches (60 mm) thick
Approx. 4.6 pavers/ft²

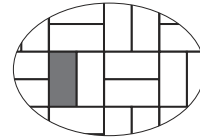

Front: Non-chamfered Colony™ pavers provide the perfect smooth surface for roller bladders and cyclists to enjoy this public park. **Below:** Pastel shades of Colony™ pavers liven up this beach walkway. **Bottom Right:** Contrasting colors of Colony™ pavers create a large checkerboard pattern. **Insert:** Colony™ pavers in a running bond pattern.

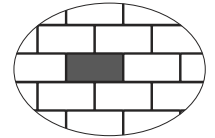

Tiled roofs blaze on sun-drenched haciendas. Bright pink flowers bloom under a canopy of palms. The mist from a hidden fountain reminds you of a memory waiting to be built.

Colony™ Solid. Simple. The foundation of your fantasy.

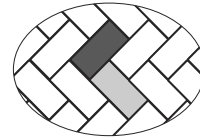

Graceful and refined, the Colony™ paver adds an element of style to both residential and commercial sites. Driveways, pool decks, courtyards, plazas, walkways and entrance areas take on a polished charm with this mainstay of architecture. Colony™'s non-chamfered edges offer the dramatic look of clay brick, with the durability for which concrete pavers are so well known.

The PaverSystems Quality Assurance™ Our pavers are designed to the highest standards for durability, color and texture. All PaverSystems™ pavers comply with or surpass ASTM C-936-01 standards.

Pavers are manufactured from mined materials and colors will vary from batch to batch. Colors printed here are reproduced as accurately as possible; however, every paver is unique and may not exactly match what you see. For the best idea of actual color and texture, ask your installer for samples of your favorite pavers.
